

Dear GEAA members and friends,

To date, GEAA has received \$5,250 in donations that are eligible to be matched by the S & M Hixon Family Foundation. I am writing to inform you that the opportunity to double your donation of \$200 or more will end on April 2nd.

I am really hoping that we can boost the amount eligible for the match to at least \$6,000, which will provide funding to keep the GEAA office open for another year. Keeping our modest storefront office open enables GEAA to engage the brightest students from San Antonio's colleges and universities in research projects much needed to discover the impact that we humans are having on our groundwater resources, and how we might best manage growth to insure the integrity of one of the most abundant sources of water on the planet.

Check out [all the great projects](#) that GEAA is doing this year. And, tell your friends about us.

Many thanks to all the thoughtful folks who have already renewed your membership, or who made an [on-line donation](#)! We hope to hear from the rest of you by April 2nd.

Thank you for your on-going support,

Annalisa Peace
Executive Director
