

Dear GEAA members and friends,

Yesterday afternoon, GEAA joined with the Cibolo Creek Conservation Society and AGUA to file a notice of intent to sue developers, the City of San Antonio and San Antonio Water System for failure to comply with the local Water Quality Ordinances and the Federal Endangered Species Act. You can read all about it [here](#), and read the Notice of Intent to Sue [here](#). Look for us on [WOAI](#) and [KABB Fox](#) TV news, [KSTX Texas Public Radio](#), and the [San Antonio Express News](#).

Tomorrow, we invite you to join members of GEAA's Technical Team and Students of Texas State University for a demonstration of interactive maps illustrating the causes, volumes, and locations of sewage leaks that have occurred on the Edwards Aquifer Recharge Zone.

(Friday, November 9, 2012 at 2:00 p.m. at the [AIA Center for Architecture 200 East Grayson, Suite 110 San Antonio, Texas 78215](#) in the Pearl Full Goods Building). Read more [here](#) and Check out the full report and maps at [GEAA's interactive map of Sewage Leaks](#)

Stay tuned for more news next week. Special thanks to the GEAA Technical Team, especially Carol Fisher, Terry Dudley, and Jim Smyle. And, thank you so much for your support, which makes all of this possible!
