GEAA Members-

Just wanted to make sure you knew about Solar San Antonio's upcoming film series showing: ***The 11th Hour***. GEAA is co-hosting, so admission for our members is only **\$5!**

"The 11th hour" is the last moment when change is possible. The film explores how we've arrived at this moment - how we live, how we impact the earth's ecosystems, and what we can do to change our course. It features ongoing dialogues of experts from all over the world, including former Soviet Prime Minister Mikhail Gorbachev, renowned scientist Stephen Hawking, former head of the CIA R. James Woolsey, and sustainable design experts William McDonough and Bruce Mau in addition to over 50 leading scientists, thinkers and leaders who discuss the most important issues that face our planet and people. Take a few minutes to [watch the trailer](#) - it's fantastic!

Details:
